Chapter 1: Discovery & Lead Scoring

AutoEngage scans Reddit and LinkedIn to identify viral posts and high-value prospects. It assigns a Lead Score to each user based on their engagement, flagging Hot leads automatically.

Chapter 2: Content Creation & Brand Voice

The agent writes authentic posts and comments using your specific Brand Voice. It references a Vector Store of your writing samples to sound human and perfectly aligned with your business niche.

Chapter 3: Lead Magnet Studio (PDFs)

AutoEngage can dynamically generate premium, beautifully styled PDF guides and ebooks to offer as lead magnets. It structures chapters and creates downloadable files instantly.

Chapter 4: QA & Compliance Pipeline

Before publishing anything, the agent runs a strict QA pipeline to remove forbidden phrases, eliminate AI smell, and ensure fact-checking so your brand reputation stays protected.

Chapter 5: Outreach & Direct Messaging

Once a hot lead is identified, the agent drafts personalized outreach DMs to start conversations and offer value, logging all interactions seamlessly in the CRM.
